GREEN COMMITTEE

Annette Riplinger

Welcome back to a new season of lessening our waste and keeping our garbage bill to a minimum. Most of us know we do this by maximizing our recycling by cleaning and drying plastic bottles and metal cans before recycling and by **flattening our cardboard boxes** before placing them in the Green Depot dumpster by the pet park and the RV parking. This summer our maintenance staff asked that we become **more conscious of totally emptying beer cans and wine or beer bottles** before recycling them. Those items can be the smelliest, wettest, and most unwelcome surprise of their day.

Snack Attack!

Candy Bars and More

Satisfy that craving.

Samuel Xu is a 17-year-old young man from Chandler who is breaking many barriers in the world of music; even after spending his childhood years in and out of hospitals battling Aplastic Anemia, a rare but serious blood disorder. Samuel had to get a bone marrow transplant at a very young age and after a nationwide search, he found his donor, his 7-year-old sister. Samuel said music helped heal his soul and hopes to change the world with his music. His prowess on the piano will amaze you!

Manager's Corner

October 19, 2018

This week's occupancy is 384 or 22% occupied, compared to 268 at the last reporting and 376 the year prior. There are currently 79 renters in the park.

People are slowly trickling back into Venture Out coming back to much cooler temperatures and abundant rain in the past few weeks. When we have large amounts of rain, like we have had recently, we must lock up the Pet Walk when water starts to flow over the sidewalks. When this occurs, take your pets to the grassy area just west of the old pickleball courts/ now the Game Zone. Please be SURE to clean up behind your pets very carefully, so that we don't inconvenience the surrounding neighbors. As soon as we are allowed we will open up the basin.

In case you are wondering, Roosevelt Water District is allocating the time we can pump and after this last storm allowed us two separate seven hour increments. If you don't see the pumps running, they have not authorized us to use them.

I want to thank Dennis Erickson, our street consultant and staff for helping in the seal coat project on the west side. That was a big job. Some areas did get over sprayed, (my understanding is that those crew members are no longer with the company), and now Sunland is out cleaning up the overspray. We will make certain everyone is happy, before they get their check.

Some of you will also return to find the marking paint on pavers, or sidewalk areas, where lights went in this summer. That paint eventually wears off so we should give it a little time. If it doesn't then we will take a power washer to it.

Also you will see the lower half of the old light poles still out there. Those must remain, until we replace all the lights on the original circuit section by section. They are wired together in a 'Daisy Chain' fashion (like old Christmas lights) so we cannot eliminate those yet.

Bathhouse # 2 is closed for the next few days while they finish up the pipe lining project. Keith and I stopped by this week and watched as they ran a camera down through the old pipes and into the new blue acrylic lined pipes. There were some areas where the pipes were completely gone, and they successfully bridged those gaps. Its quite an interesting project and should result in a brand new 'useful life' span for the bathhouses, greatly extending the use of the bathhouses for decades. When the project is done, they will provide us with 'before and after' CD's and we will edit those down into a clip that can be viewed on Channel 17.

During the summer we used FASTMAIL to notify our owners/renters that were in residence for any issues that might be happening out there. Most notably it has been used to keep everyone up to speed on the continued disruption along Main St. and Broadway as the City and Southwest Gas work at both gates. We will continue with this system this fall, with a FASTMAIL list dedicated only to those who are in residence and have an e-mail registered with us.

During the summer, with both city streets so torn up, we have allowed the back gate on Broadway to remain open until 10:00 P.M. We have asked that the residents use it carefully at night, by staying parked at the back gate and watching to see that it closes fully behind them and that no one slips in behind their car. The Board will review this policy to see if it will continue as we go into season and it gets darker earlier. We anticipate months more of the roads being torn up and the inconvenience at both gates couldn't be more poorly planned. One is a City project (Broadway) and the other on Main is Southwest Gas.

Welcome back, and check your units for any storm damage, since we had a lot of major storms blow through the park.
