Where did the Labels for Education program go?

For over 43 years, Campbell has proudly offered Labels for Education® which has contributed more than \$110 million in school supplies to tens of thousands of schools across the U.S. It has been one of a number of ways in which we support Americans kids and families as part of our commitment to being a responsible corporate citizen.

During the past few years, we had been assessing the impact of these programs and through this, we saw that participation in Labels for Education declined considerably. Sadly, it was at the point where we had no choice but to make the very difficult decision to end the program.

The Labels for Education program has officially ended, we want to thank all the schools and families that have made the program so special over the years. We are proud to have been part of your communities and appreciate the support you have shown for our brands. If you have questions, please call 1-800-257-8443.

Manager's Corner

October 5, 2018

This week's occupancy is 268 or 15% compared to 209 at the last writing and 264 one year prior. There are currently 60 renters in the park.

Well Murphy's Law works well at Venture Out. Clean all the solar panels. Check. Schedule a large seal coat project for the first of the month. Check. Have record setting rains. Check Check. For everyone here on site, you have all been sent the most recent revised map that is also included in the Out-Lines. As I said on FASTMAIL, we will work through Sunday trying to get in between the rains, although one forecast model does call for rain on Sunday as well. If the seal coat is shut down a second time by rain, the schedule will be adjusted accordingly, by simply moving forward to the next dry day to finish the project.

Bathhouse # 2 will also be undergoing some work in October. In August, the Board approved to line the sewer pipes, which should extend the useful life of the bathhouse for many years. A new clean out drain was installed on Wednesday the 26th. The pipes will be lined October 8th – 18th. Bathhouse # 2 will be closed when they do this work. We are sorry this is so late in the summer, but this was the earliest date the contractor could give us once the project received Board approval.

If you are just returning, you will see several improvements; the biggest one is new street lighting on some streets in the 900 & 800 blocks. This is the plan for the entire park, so when it gets dark, you might want to take a tour and see how it looks. This past summer we had to tackle 28 transmittals and 22 reserve projects on top of the normal maintenance and wear and tear. Three of those projects are still being discussed by the Board and the clubs after running into design issues and questions this summer, that simply could not be resolved long distance.

While small changes, two improvements with the biggest impacts will be the small conference room we carved out in the Administration building and the slightly larger meeting room in the Activity office. Both rooms are sound proofed. Finding meeting spaces where small groups can meet without interference is one of the biggest requests we have here at VO.

We have had some health monitors turned in since they are no longer needed. Please see Brandon if you want one of these. They are connected directly to the guard house and are only good within your home. Over the years they have helped several people who have fallen in their homes and were able to summon Security for help. These were purchased by the Venture Out Foundation.

Please look in this week's Outlines for important information on Maricopa County Tax notices and billing.

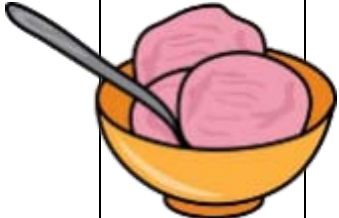

Some people have returned to the park and not yet checked in. Please do that at your earliest convenience. The red hologram stickers became available September 1st. If club members are returning and monitors are back in the park and want the club facilities opened, you need to contact Brandon in Security and let him know.

Thank you and enjoy your weekend!
