# VENTURE OUT AT MESA COVID-19 ADVISORY

## Requirements for Common Elements

The novel coronavirus, COVID-19, has been declared a worldwide pandemic by the World Health Organization. COVID-19 is reported to be extremely contagious. The state of medical knowledge is evolving and the exact methods of spread and contraction are unknown, but there is no known treatment, cure, or vaccine for COVID-19. Evidence has shown that COVID-19 can cause serious and potentially life-threatening illness and even death.

### PREVENTATIVE MEASURES

***Venture Out At Mesa, Inc. (“Venture Out”) has put in place preventative measures for the community to reduce the spread of COVID-19.***

**However**, Venture Out cannot guarantee that you will not become infected with COVID-19 while in the Venture Out community. Venture Out cannot prevent you from becoming exposed to, contracting, or spreading COVID-19 while in our community and while using Venture Out’s amenities. Therefore, if you choose to enter into the Venture Out community and participate in Venture Out’s amenities you may be exposing yourself to and/or increasing your risk of contracting or spreading COVID-19.

### RESTRICTIONS AND GUIDELINES

Venture Out has established restrictions and guidelines regarding all common elements. The restrictions and guidelines are posted at all common elements within the park, have been sent via FAST Mail, the Venture Out-lines and made available in printed form.

#### **Residents, renters, guests, and contractors are expected to:**

- 1) Be fully aware of the posted restrictions and guidelines.
- 2) At all times, while within the park, comply with the posted restrictions and guidelines.
- 3) Ensure that safe personal procedures are being followed, including, wearing masks, social distancing (6’), and proper sanitation.
- 4) **GUESTS:** *At the present time, guests are not permitted to use common elements within the park*

## CONDO BOARD PRIORITIES

The VO Condo Board recognizes that this is a difficult time for everyone. We all come to Venture Out to enjoy the multitude of activities and to socialize with friends. Yet, this year is different. Therefore, ***the Boards priorities are focused on:***

- 1) The health and safety of all our residents and staff
- 2) Compliance with Federal, State and County guidelines and restrictions, regarding the COVID-19 pandemic.
- 3) Compliance with guidelines from the Center for Disease Control, state and county health services.

The Condo Board has incorporated the above advisories, restrictions, and recommendations into the Guidelines posted within the park. The intent is to maintain a safe and sanitary environment while supporting the recreational and social activities that can be conducted safely.

We have been advised by our lawyers and insurance provider that ***we (VO) must do the following:***

- 1) Establish safe procedures, restrictions and guidelines.
- 2) Communicate the established safe procedures, restrictions and guidelines to all residents, renters, guests and contractors, by postings, FAST Mails, and dissemination of printed copies.
- 3) Monitor for compliance.

Failure to comply with the established guidelines could result in a significant liability expense, which would have to be paid by all owners. It is with this in mind, that ***the contents of this 'Advisory' represents our best plans for the safety, well-being and enjoyment of the entire Venture Out community.***

*Thank You*

*Venture Out Condo Board*

**November 6, 2020**

Since Monday we have had four positive cases of Covid reported to our office. All residents are doing the responsible thing and when diagnosed immediately began self-quarantining and doctoring at home. I also understand they reached out to those they encountered to alert them as well. We appreciate their honesty and their concern for reporting in and making certain to protect their fellow neighbors.

So with four in one week, I guess we can say, Covid is now truly here in the park and all the procedures and practices we have been asking you all to follow, they are now, that much more important as we need to stop any spread.

We are recommending, as always, that you wear your masks, you wash or sanitize your hands frequently, you maintain at least a six foot distance from others except your known household and be very cautious about any activities. I think by now, all of us know people who have gotten this disease and one thing I have heard repeatedly when I learn of a case, is that they really don't know how they got it or when they were exposed to it. With that in mind I would view everyone as a potential source of infection.

After the last FASTMAIL, I spent the better part of Tuesday responding to e-mail questions from homeowners about what they could and could not do in the park with Covid restrictions. Each club has posted the guidelines for using the facilities. Those guidelines were approved by the Social Board and also reviewed and approved by the Condo Board. They are posted online and are available at each club. These guidelines uniformly require wearing a mask when using the facilities, except when playing a strenuous game or physically IN the pool water. That is your best line of defense always. Regardless of what you think of masks, Maricopa County's rate of infection dropped by 75% once it became a mandate.

We are now at a crossroads. More people are coming back into the park. Keeping Covid at bay in the park depends on all of us, residents and staff to do everything we can not only to protect ourselves, but to protect others.

Ken located an interesting article on Covid written by a Dr. from MIT, which we will place online. It's a google doc, 57 pages long about anything and everything you would want to know about the transmission of this disease. It is more extensive than the CDC's and they have been imploring the CDC to publish it, but as of the date of that article, that had not happened. The link for the article is below:

[https://docs.google.com/document/d/1fB5pysccOHvxphpTmCG\\_TGdytavMmc1cUumn8m0pwzo/edit#heading=h.k10zp34x5s0p](https://docs.google.com/document/d/1fB5pysccOHvxphpTmCG_TGdytavMmc1cUumn8m0pwzo/edit#heading=h.k10zp34x5s0p)

When we are not dealing with the ramifications of Covid, we still have our other duties here in the park. For those that are just coming back, you should notice that all the street lights have been replaced along Aztec and the street light and roads projects that were done this summer and encompassed parts of the zero, 100 and 200 block are also done. If you are walking around the park at night, I'm certain the Board would appreciate any comments back about this lighting. We feel it is a major improvement over the former residential lights.

We mentioned earlier about the problems we had with our record breaking summer heat. It was the hottest summer on record since they had been keeping track dating back to 1895. To add insult to injury, it was also one of the driest summers on record, with a mere half of an inch of rain officially recorded in the valley. This heat took a tremendous toll on our landscaping and one specimen that in particular were affected were the saguaro cactuses. Over 40 of these have now come down, due to rot from the lack of water. Some have toppled into the streets, thankfully missing cars or passers by. Others, staff or owners have found before they came down, and they dropped them before they could cause any damage. If you have one of these large cactuses on your property, we recommend you have it inspected soon.

Two final things. Campaign signs must be down three days after the election. We have a few of those in the park. And staff is telling me that face masks are being thrown into the recycle bags. That contaminates the load and of course the staff cannot touch these, so that causes those re-cycles to go into the trash. Used face masks are trash only.
