Memo to Club Presidents

Holiday Greeting to all! The Social Board has a few additional topics we would like to share with you and ask that you please provide this information to your club members as soon as possible.

Our expectation is that you communicate the information you received at the Club Officers meeting on November 24, 2020 to all members. We want to make sure that everyone understands the 10-day quarantine request prior to participating in club activities, appropriate masks to be worn, safety log checks, the consequences for non-compliance with Covid-19 guidelines, the Social Board Harassment Policy, and the protocol for testing positive for

Covid-19. If your club is not having meetings this season, we ask that you share this information through email with club members, as well as, posting the information at your club's facility. The information which was provided at the Club Officers meeting is also available in the Activity Office should you need an additional copy.

We request a 10-day quarantine if you travel outside Arizona anytime, including holiday travel. As you know the CDC just came out with new quarantine guidelines which includes testing. testing.

The CDC now recommends two options for how long to quarantine following travel. Based on local availability of viral testing, for people without symptoms, quarantine can end:

- On day 10 without testing
- On day 7 after receiving a negative test result

If you do travel, the guidelines are that individuals should get a coronavirus test one to three days before travel and then three to five days after travel, combined with quarantine for seven days after arriving.

On December 1, the Social Board agreed the 360-electrostatic sanitation machine should not be used daily or on a regular basis for club sanitation purposes. Administration has been notified to no longer sanitize the following club areas with the 360-electrostatic machine: pickleball, bocce, sewing, and pool room.

Our expectations and your Covid-19 safety guidelines have indicated disinfecting workspace and sanitizing equipment and tools are key to keeping your club members safe and your club open. The reason for this action is that the Social Board believes by utilizing the 360-electrostatic machine, members are given a false sense of security and a reason not to be as diligent in their own sanitizing practices. However, should a member test positive for Covid-19, the club facilities would be closed immediately and sanitized using the 360-electrostatic machine.

The Recreation Department is in the process of providing club sanitizing supplies, including hand sanitizer and spray disinfecting solution at a reasonable cost. In the near future, clubs will be able to obtain hand sanitizer and disinfectant through Activity Office with payment required at the time of order. Information on that process will be forthcoming.

Introduction of the 2021 Condo Board Candidates

Betty Bradfield,

Jim Van Heule

YOUR SOCIAL CLUB NEEDS YOU!

The Social Club Nominating Committee is currently seeking individuals to serve on your Social Board. There are three positions to fill this year; all three-year terms.

Many of you have the talent and skills needed for this Board. If you have basic computer skills, are a team player, have the ability to organize, enjoy working with people and have no personal agenda you would be an excellent candidate to serve your community in this area.

Hopefully, Covid-19 will soon be behind us and we can once again enjoy the many activities and events offered by your Social Club. We need good, willing people to help get us back on tract.

If you are interested or know someone who you feel would be a good candidate, please contact a member of the nominating committee.

COVID-19 PREPAREDNESS

VENTURE OUT

The following information is derived from the Guidelines and Recommendations issued by the Center for Disease Control and Maricopa County Department of Public Health. The intent is to provide the residents, renters, guests, and contractors in Venture Out with information regarding how we can: prevent, recognize, report, and control the spread of the COVID-19 virus. In addition how we can individually and as a group work together to control the spread of the virus. The level of preparedness is reflective of the current levels of COVID-19 in and outside of the local community.

Venture Out Administration will follow up on notifications of a positive case in the park, with contact tracing and notifying any person known to have been exposed, based on their proximity to a person who may have the virus.

Information in *Italics* is excerpted from Center for Disease Control (CDC) and Maricopa County Dept of Public Health

Travel: Frequently Asked Questions, Nov 21, 2020 - CDC (1)

Can traveling to visit family or friends increase my chances of getting and spreading COVID-19?

Yes. Travel increases your chances of getting and spreading COVID-19. Before you travel, learn if COVID-19 is spreading in your local area or in any of the places you are going. CDC does not require that domestic travelers undergo a mandatory federal quarantine but does recommend you take everyday actions and reduce nonessential activities for 14 days after you return from travel to protect others from getting COVID-19:

Traveling to and arriving at Venture Out

Persons arriving at VO may consider staying in quarantine for 10 days. Consideration may also be given to obtaining a COVID-19 test at a local testing facility.

When to Quarantine – CDC (2)

Quarantine is used to keep someone who might have been exposed to COVID-19 away from others. Quarantine helps prevent spread of disease that can occur before a person knows they are sick or if they are infected with the virus without feeling symptoms. People in quarantine should stay home, separate themselves from others, monitor their health, and follow directions from their state or local health department.

Symptoms of COVID-19 – CDC (3)

- *People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness. Symptoms may appear **2-14 days after exposure to the virus.***
- **Symptoms:** Fever or chills, Cough, Shortness of breath or difficulty breathing, Fatigue, Muscle or body aches, Headache, New loss of taste or smell, Sore throat, Congestion or runny nose, Nausea or vomiting, Diarrhea

Isolation if You Are Sick – CDC (4)

- ***Isolation** keeps someone who is infected with the virus away from others, even in their home. **Who needs to isolate?***
- *People who have symptoms of COVID-19 and are able to recover at home*
- *People who have no symptoms (are asymptomatic) but have tested positive for infection with SARS-CoV-2*

What to Do If You Are Sick – CDC (5)

If you are sick with COVID-19 or think you might have COVID-19, follow the steps below to care for yourself and to help protect other people in your home and community.

Stay home except to get medical care – Self Isolation

It is essential for your safety and that of the other residents of the park that you self-isolate.

- **Stay home.** Most people with COVID-19 have mild illness and can recover at home without medical care. Do not leave your home, except to get medical care. Do not visit public areas.
- **Take care of yourself.** Get rest and stay hydrated. Take over-the-counter medicines, such as acetaminophen, to help you feel better.
- **Stay in touch with your doctor.** Call before you get medical care. Be sure to get care if you have trouble breathing, or have any other emergency warning signs, or if you think it is an emergency.
- **Avoid public transportation, ridesharing, or taxis.** Separate yourself from other people

As much as possible, stay in a specific room and away from other people and pets in your home. If possible, you should use a separate bathroom. If you need to be around other people or animals in or outside of the home, wear a mask.

Tell your close contacts that they may have been exposed to COVID-19. An infected person can spread COVID-19 starting 48 hours (or 2 days) before the person has any symptoms or tests positive. By letting your close contacts know they may have been exposed to COVID-19, you are helping to protect everyone.

Preparing for When Someone Gets Sick CDC (6)

Considerations for Retirement Communities and Independent Living Facilities – CDC

- **Advise Sick Individuals of Home Isolation Criteria**
 - Sick workers should not return to the facilities or end isolation until they have met CDC's criteria to discontinue home isolation.
 - Have ill residents seek advice by telephone from a healthcare provider to determine whether medical evaluation is needed.
 - Residents are not required to notify administrators if they have a confirmed case of COVID-19. If you receive information that someone in your facility has COVID-19, you should work with the local health department to notify anyone in the building who may have been exposed (had close contact with the person who is ill) while maintaining the confidentiality of the ill person as required by the Americans with Disabilities Act) and, if applicable, the Health Insurance Portability and Accountability Act
 - Encourage residents with COVID-19 symptoms and their household members

and close contacts to self-isolate – limit their use of shared spaces as much as possible.

- *Those who have been in close contact with a resident who has confirmed or suspected COVID-19 should monitor their health and call their healthcare provider if they develop symptoms suggestive of COVID-19*
- **Notify Health Officials and Close Contacts**
 - *In accordance with state and local laws and regulations, retirement communities and independent living facilities should notify local health officials, residents, workers, volunteers, and visitors of cases of COVID-19 while maintaining confidentiality in accordance with the Americans with Disabilities Act (ADA) .*
 - *Inform those who have had close contact with a person diagnosed with COVID-19 to stay home or in their living quarters and self-monitor for symptoms, and follow CDC guidance if symptoms develop.*

ARE YOU A CLOSE CONTACT OF SOMEONE WITH COVID-19?

MARICOPA COUNTY CDC (7)

- *You are considered a close contact of someone with COVID-19 if you were exposed to the sick person for more than 10 mins and within 6 feet or less, or.*
- *You live in the same household*

When Public Health is notified that a person tested positive for COVID-19, we investigate all the places and people the person who tested positive was in contact

with, starting 48 hours before their symptoms began. This can include household contacts, workplaces, healthcare workers, and other close contacts.

Public Health then reaches out to close contacts to inform them of their exposure, provide instructions for next steps, and connect the contact to resources that can support them as they watch for symptoms and reduce risk of spread.

How You Will Find Out: If you have questions about the validity of a phone call or text you received from Public Health, you can speak to a contact tracing specialist at 1-855-414-4673.

To help facilitate our contact tracing efforts, Public Health reaches out to close contacts of lab confirmed COVID-19 cases via phone call and text message to inform them of their exposure. On the phone call, we will provide instructions for next steps and connect you to resources that can support you and your family while watching for symptoms and reducing risk of spread.

For those with mobile phone numbers, you also may receive a text message from Public Health, with a link to a secure, confidential online form with a few brief questions. Once you submit that to us, we can then send specific information about when you were exposed and what to do during the next 14 days. The form will take less than 5 minutes to complete. It includes questions about:

- *Name*
- *Date of birth*
- *Best contact information*

Note: If we are unable to reach you by phone, we may also try to reach you through text or email, letting you know that we have important information and to please call us back

What You Will Be Asked to Do

Once you are identified as a close contact of someone with COVID-19, Public Health will provide you guidance about next steps. You will be asked to:

Stay home as much as possible, except to get essential medical care, prescriptions,

and food. In some cases, you may be allowed to go to work. See *Quarantine Guidance for Household and Close Contacts*.

Sign up for SARA Alert, an electronic symptom monitoring system that sends a daily email, text message or phone call asking if you are experiencing any symptoms of COVID-19. Symptoms of COVID-19 can occur from 2-14 days after exposure.

If you do not develop symptoms within the 14-day time frame, you will stop receiving SARA Alert reminders and are no longer at risk from that exposure.

If you develop symptoms within the 14-day time frame, Public Health will reach out to you to discuss your symptoms, how to get tested, and what you should do to address your symptoms and prevent spread. If your test comes back positive, the process will start over with interviewing you and notifying your close contacts of their exposure.

If you are currently experiencing COVID-like symptoms, you should contact your provider or go to a testing site to be tested for COVID-19. If your test comes back positive, the process will start over with interviewing you and notifying your close contacts of their exposure.

DRAWING CLASS

It's true! You can improve your drawing skills with just a #2 pencil, a couple erasers, a sharpener, and some paper. Tune in to Ch 17 weekdays at 1:35 and 3:35 pm and join in this 30 minute class. Treat yourself to a drawing journal from the local art supply store to show your improvements with each class. No matter what your current experience is, you can practice your observational skills, make a value chart, and draw proportional ellipses. We've been applying these skills to using geometric shapes to draw a wine bottle, then a still life. Take a breather and draw.

Come outside the Community Center Post Office side on Friday, January 8 between the hours of 9:00 am and 3:00 pm you'll be able to select a book or two or three of your choice for free. The only thing we ask is that you don't return those books to us. Hand sanitizer will be available as will a donation box should you wish to support the Venture Out Library and the Social Club.

Have you purchased your tickets from the Activity Office for the January Hams at Heart show to be presented Monday, January 11 and Thursday, January 14 at the Patio? Tickets are only \$5.00 and you'll be able to catch this fast moving variety show guaranteed to leave you smiling behind your mask! Oh! And don't forget to wear your mask. To participate you must register for a table of four in the Activity Office until 3:00 pm by Thursday, January 14. Four people are required per table so that the games are equitable.

Are you into yoga? If so, you'll want to check out the sale ad in the next edition of the Out-Lines as Venture Out will be selling various yoga equipment which can no longer be used for group participation. The US Yoga Alliance now recommends that to participate in this form of exercise it is mandatory individuals provide their own equipment. Sale items to include, blocks, blankets, mats and straps.

Manager's Corner

January 1, 2021

This week's occupancy is 888 or 51% vs. 829 at the last report and 1314 last year. There are currently 133 renters in the park.

Thank you to all Venture Out Residents. You REALLY stepped up and helped maintenance these last two weeks by taking your garbage directly to the dumpsters. The much smaller crew was able to pick up what was left. We are back to our full crew again, with staff testing negative and reporting to duty on Monday. For all of you who enjoy dumpster diving, this would be the time to NOT participate in that activity. We do have active Covid cases in the park and there are numerous other potential health hazards in the waste. I would strongly discourage that at this time.

Occupancy is now at 50% in the park and so we are adding a second shift to the fitness center effective January 4th until the end of the season, or until occupancy drops under 50% whichever comes first. The Fitness Center will be open from 5:00 A.M. until 9:00 P.M. seven days a week.

Just prior to Christmas residents reported not being able to get packages at the post office. I understand that a truckload of missing packages showed up just in time for Christmas and hopefully most everyone received what they were expecting. The Post Office window is to be open, per the Falcon Field Manager, for the entire time the carrier is inside and sorting mail. You should be able to pick up your packages any time between 11:00 A.M. to 1:30 P.M. six days a week. If you should have any issues with the window not open during this period of time, please let the Admin Office know.

Covid numbers continue to be alarmingly high and the positivity numbers are at 27% this week of all those receiving tests, or more than 1 out of 4 getting tested now, are showing positive for the virus. The increase in the positivity number is what healthcare professionals focus on, as it shows how it is spreading in the community.

I cannot think of any better reason than that positivity rate, to stay close to home right now. I understand all New Year's Eve festivities up and down the street at all the retirement communities have been canceled. Once again, however, despite this negativity, I must report that only 17 cases have been reported to this office. I cannot say that everyone notifies us if they are ill, but I think most are being diligent to warn us, so we can in turn contact you if necessary. I appreciate everyone's care and concern for their neighbors. If those numbers hold, and we continue our safe practices, Venture Out will have less than 1% reported cases in the park. Frankly that is stellar, and you should all congratulate each other, at appropriate six-foot distances.

I want to repeat again, once we know when vaccines will be offered for your age group, we will put out a FASTMAIL and alert everyone. That has not happened yet. The vaccination rate may be a bit slower than they had originally hoped, largely due to the need for freezing the vaccine and secondly the need to monitor all those vaccinated, for adverse reactions for at least 15 minutes afterwards. As you can imagine, that would require some space and logistics. Vaccines will **NOT** be offered at Venture Out. They have set up large centers such as at the Arizona State Fairgrounds, to facilitate crowds and Social Distancing. Vaccines will be available to all Canadians that are in Arizona at the time you are eligible.

Friday is New Years Day and all offices will be closed and the staff will be off. There will be no garbage pick up that day. If you have a lot of garbage please take it directly to the dumpsters.

We are looking forward to 2021 when everyone is vaccinated, and we can 'return to normal'. Have a wonderful and above all safe New Years.
